Baker Ballistics, LLC Sole Source Justification

The PatrolBat™ and Baker Batshield® are uniquely designed ballistic protective shields and are fully protected by three U.S. Patents - numbers 6,595,101 / 6,886,446 and 7,520,206, all issued to the inventor, Alfred J. Baker.

PatrolBat™, Baker Batshield®, and M.R.A.P.S.™ are solely manufactured by Baker Ballistics, LLC., under exclusive license authorized and granted by Alfred J. Baker.

There are no other ballistic shields on the market that allows the shield operator to hold both hands on a weapon (handgun or long-gun) while simultaneously positioning the shield in a combat ready position protecting the user.

The PatrolBat™, Baker Batshield®, and M.R.A.P.S.™ are unique products that have no “equivalent”, and are truly “Sole Source” items.
